Issue

Status dropdown for CMS should be uniform (make it Active/ Inactive)

Make dropdown items during edit preselected

Main Menu ordering not working

Sub menu order no is not coming correctly (for new sub menu it was coming as 5)

Change Action title to EDIT in CMS table for menu

Change Add Category buttons name to as required (All buttons have Add Category name)

Menu Item text is coming on the banner in second page while it doesn't appear for other pages

Change Sub Category label to Sub Menu

Keep Active as pre selected in CMS dropdowns

Check Orders textbox in CMS it should appear as 1,2 etc

Remove Plan Image

Left Side Menu of the CMS should be highlighted for the current selected page

Breadcrumb fonts are too smal

Hint text appearing as Product Update in edit page
