1	NH/BSPS/PH/GM /2023/W.O./88 dated 02.03.2023	Replacement of damage Insulation sheet of Runner Disc.	Work order	M/s Multitech Engineers, Ghaziabad.	678500/-	_____	on 22.02.2023, generating Unit # 2 was tripped due to high Generator shaft current. The entire test were carried out and found that IR value between Runner Disc and Thrust Collar is Zero. To find out the reason of generation of Shaft current Thrust Collar & Runner Disc was dismantled for chcking of insulation of Runner Disc and it has been found that insulation sheet of Runner Disc & one insulated dowel got punctured and damaged. Repairing of insulation sheet and dowel was not possible in Power House and currently Power House was not having any spare Runner disc. Therefore damaged Runner disc. was urgently required to be repaired as Power Station was suffering huge generation losses.	_____	_____
