6. World Health Organisation (WHO) declared outbreak of Corona virus Disease (COVID-19) a global pandemic on March 11, 2020. Consequent to this, Government of India declared lockdown on March 23, 2020 and the Group temporarily suspended the operations in all the units of the Group in compliance with the lockdown instructions issued by the Central and State Governments. COVID-19 has substantially impacted the normal business operations of the Group by way of interruption in production, supply chain disruption, unavailability of personnel, closure/ lockdown of production facilities etc. during the lockdown period which has been extended till May 17, 2020. Production and supply of goods has commenced at various dates during the month of May 2020 and in a staggered manner at some of the manufacturing locations of the Group after obtaining permissions from the appropriate government authorities.

The Group has made detailed assessment of its liquidity position for the next 12 months including unutilized sanctioned credit limits and avenues to raise new funds/ refinancing, recover ability of its assets comprising of property, plant and equipment, intangible assets, right of use assets, investments, inventories and trade receivables. Based on current indicators of future economic conditions and estimates made by the Management of the Group, the Group expects to recover the carrying amount of these assets. It expects short term challenges in operating environment and has undertaken various cost containment initiatives which will yield results in medium to long term. At this time, the Group expects to attain the pre-covid levels of performance in 6-9 months.

The situation is changing rapidly giving rise to inherent uncertainty around the extent and timing of the potential future impact of the COVID-19 on revenue from operations, profitability and recoverability of investments and account receivables. The outcome of the same may be different from that estimated as at the date of approval of these financial results. The Group has assessed the impact of the COVID-19 on its operations & profitability and recoverability of investments and account receivables and expects to recover faster compared to the estimates made for the current financial year.

As a result of lockdown the volumes for the current quarter is impacted. Revenue from operations and profitability have decreased due to COVID-19 related market volatility. Therefore, results for current quarter is not comparable to previous corresponding period results.
