HIGHLIGHTS OF NHPC'S

IT & CYBER SECUIRTY POLICY

The IT Business Process of NHPC is centralized. All NHPC sites, Data Center and Corporate Office are integrated with Software Driven WAN technology. The level of digitalization has reached a new height in NHPC. IT services and resources are being accessed from anywhere, which has added a newer cyber-security threat landscape in the organization. In order to safeguard IT and OT Information Infrastructure and adopt standardised process NHPC has implemented IT and Cyber Security Policy. The policy is being reviewed annually. IT & Cyber Security Policy consist of following Policies for IT&C and policies for end-user:
