MESSAGE

Over a period of time, Corporate Social Responsibility(CSR) as a concept has evolved into social responsiveness from the mere role of responsibility. As an activity, it is no longer an act of adherence to legalities or as an ethical and philanthropic function. Today, CSR as a process is not separated from the core business of the company, but expresses itself in the very nature of the business.

NHPC, being a socially responsible corporate citizen believes in inclusive growth of stakeholders. In corporate governance, it is the practice to maintain good relations with the stakeholders at large. The CSR expenditure of NHPC towards the wellbeing of the society in varied fields, be it education, health and sanitation, rural development, sports etc. with major emphasis on Health and Nutrition, has increased manifolds over the years. This depicts that with the financial growth of NHPC with every passing days, its concern towards society has also grown up exponentially.

NHPC is committed to improving healthcare access and ensuring the well-being of communities. The report highlights our initiatives to enhance healthcare infrastructure, facilitate medical camps, and promote preventive healthcare practices. Our objective is to make quality healthcare accessible to the underprivileged sections of the society.

The Annual CSR Report outlines our efforts to promote quality education by enhancing educational infrastructure, supporting scholarships, and providing vocational training. Through these initiatives, we aim to equip individuals with the knowledge and skills necessary for a better future. NHPC is contributing in providing support to Persons with Disabilities to make their life better.

I convey my best wishes to entire team of CSR &SD Division of NHPC and compliment them for bringing out this Annual Report compendium for the FY 2023-24.
