16	Reasons for Non-Compliance	
17	Justification for award of contract on nomination basis	The execution of work under direct supervision and guidance of executive/workmen of DGPS seemed not feasible as it involves complexity due to the variation of work demand on per day basis also the deputation of labour (skilled, semi skilled and unskilled) workers according to nature of work. The cost of execution would be higher if DGPS executive/workmen supervise the work. Also, it cannot be managed at such level because of the complexity in-house execution would also result in higher costs and inefficiencies
