The list of facilities / instruments falling under the purview of various financial sector regulators (FSRs), along with the names of respective FSRs has been disclosed under Annexure-7.

### Rationale and key rating drivers

Reaffirmation of the long-term rating assigned to the bonds of NHPC Limited (NHPC), India's largest hydropower producer with an operational hydro capacity of 8,771 MW as on May 15, 2026, factors in satisfactory operational and financial performance of the company. The plant availability factor (PAF) of the company's hydro power projects remained satisfactory at 74.7% in FY26 (PY: 78.7%) leading to recovery of full capacity charges for majority plants. This apart, the company also earned incentive income in some of its projects. The company generated 29,600 million units (MUs) in FY26 (PY: 25,532 MUs) and this increase is primarily attributable to commissioning of 800-MW Parbati II Hydroelectric project in April 2025 and higher generation from Parbati III.

<sup>1</sup>Complete definition of ratings assigned are available at [www.careratings.com](http://www.careratings.com) and other CARE Ratings Limited's publications.

The rating also considers provisional tariff order issued by Central Electricity Regulatory Commission (CERC) in February 2026 for Parbati II, post which NHPC has started billing the throughput from this project at 75% of the expected tariff. The approval of full project cost by CERC shall be a key rating monitorable. The rating factors in commissioning of four out of eight units of Subansiri Lower (8\*250 MW), which had previously witnessed cost and time overrun. The entire capacity of Subansiri Lower is expected to achieve commercial operations date (COD) by March 2027. NHPC has also commissioned a 300-MW solar power project in Bikaner, Rajasthan, under the Central Public Sector Enterprises Exchange (CPSE) Scheme in October 2025. The company's financial performance remained robust in FY26, with revenue of ₹12,686 crore (PY: ₹10,586 crore) and earnings before interest, taxation, depreciation, and amortisation (EBITDA) of ₹6,307 crore (PY: ₹4,517 crore).

The rating continues to factor in the company's strategic importance to the Government of India (GoI), which holds a majority stake of 67.4%. The rating draws strength from the consistent support extended by the GoI over the years, as evidenced by subordinated loans provided for select projects with elongated repayment profile and low rate of interest, and sovereign guarantees backing some of the company's senior borrowing programmes. The rating also factors in long-term revenue visibility by virtue of the long-term power purchase agreements (PPAs) of 40 years from COD with state distribution utilities (discoms) for its operational hydro power plants. The tariff for hydro power projects is cost plus in nature and determined per CERC's tariff regulations under Section 62, ensuring full cost recovery upon meeting the normative parameters and leading to stable cash flows. CARE Ratings Limited (CareEdge Ratings) notes significant tie-up of under-construction capacity through long-term PPAs, which supports the long-term revenue visibility. The rating continues to favourably factor in geographical and counterparty diversification which mitigates asset concentration to a large extent.

The company remains exposed to counterparty credit risks, considering exposure to state electricity distribution utilities and departments which have relatively weak credit profiles. However, payments in recent past have been timely, primarily owing to the implementation of Late Payment Surcharge (LPS) Rules in 2022. Counterparty risk is also mitigated owing to NHPC being one of the beneficiaries under the tripartite agreement (TPA) signed between select central government entities, the state governments, and the Reserve Bank of India (RBI). The rating is also constrained by NHPC's elevated leverage profile marked by total debt/EBITDA of 8.27x as of FY26 end, which is expected to remain high in the medium term owing to large capex plan (~₹53,000 crore from FY27 to FY30) of the company. CareEdge Ratings takes cognisance of risks associated with the company's large capital expenditure plans with under-construction capacity of ~9 GW as on March 31, 2026. NHPC is also exposed to execution risks inherent in development of greenfield hydropower and renewable power projects. The company's several under-development hydro power projects have witnessed time and cost overrun. Owing to cost plus nature of tariff, approval of capital cost by CERC without major disallowance is critical for recovery of investments and shall be a key rating monitorable.

CareEdge Ratings has withdrawn the outstanding rating for the ISIN INE848E07153, ISIN INE848E07BD5, ISIN INE848E07AY3 and INE848E07BJ2, as the company has repaid the amount and there is no outstanding as on date. Ratings have been withdrawn per CareEdge Ratings' withdrawal policy.

### **Rating sensitivities: Factors likely to lead to rating actions**

**Positive factors** – Not applicable

#### **Negative factors**

- Significant decrease in the GoI's shareholding, leading to reduction in financial and strategic importance of NHPC for GoI.
- Significant build up in the receivables on a sustained basis, adversely impacting the company's liquidity profile.
- Any unfavourable change in regulatory regime for determining the tariffs of hydro projects, adversely impacting company's cash flows.
- Any major time and/or cost overruns in projects execution resulting in higher-than-expected leverage levels.

**Analytical approach:** Consolidated. The rating factors in NHPC's strategic importance to the GOI and its role as the largest hydro power company in India. Consolidated subsidiaries/JVs are presented in Annexure-6.

#### **Outlook:** Stable

The 'stable' outlook of the company factors in presence of long-term PPAs with cost-plus tariff, healthy operational performance, which is expected to sustain, reasonable collection efficiency, and steady physical and financial progress in terms of capex in the medium term.

### **Detailed description of key rating drivers**

#### **Key strengths**

**Cost-plus tariff providing stable cash flow and assured returns**

NHPC has low sales risk considering presence of long-term PPAs for 40 years from COD for its hydro-projects. The tariff for each hydropower station of NHPC is determined on cost-plus basis per CERC tariff regulations under Section 62 of Electricity Act, 2003. The tariff comprises depreciation, interest on term loan, interest on working capital, operation and maintenance expenses and return on equity (post tax). While 50% of tariff is payable subject to availability being higher than normative availability, the rest is paid if generation is higher than design energy. Overall tariff of the hydro plants of the company continues to remain competitive at ₹3.98/unit as on March 31, 2026, on standalone basis.

**Healthy operational performance**

NHPC's plants achieved an aggregate PAF of 74.7% in FY26 (PY: 78.7%). The company reported generation of 29,600 MUs in FY26 (PY: 25,532 MUs). This increase in generation is primarily attributable to commissioning of 800-MW Parbati II Hydroelectric project, which achieved COD in April 2025. NHPC booked incentive income of ₹913 crore in FY26 (PY: ₹865 crore) driven by availability-based incentives on capacity charges, generation being higher than design energy and deviation charges on a consolidated basis.

**Comfortable leverage and coverage metrics**

NHPC's overall financial risk profile continued to remain comfortable characterised by low overall gearing despite large capex and dividend payout. Overall gearing remained low at 1.07x in FY26 (PY: 0.88x), while interest cover stood at 4.43x in FY26 (PY: 4.55x) on a consolidated basis. The company has significant capital expenditure plans in hydro and renewable, which will lead to moderation in debt coverage indicators in the medium term.

**Government support and majority ownership by GoI**

NHPC benefits from its strong linkages with the GoI, with the GoI holding a majority stake (67.40% as on March 31, 2026). The GoI has provided support in the form of longer tenure subordinated debt to fund strategically important projects at concessional interest rates. The GoI has guaranteed certain loans of the company. NHPC benefits from supportive policy frameworks such as hydro purchase obligations and budgetary support for hydro power projects among others.

**Key weaknesses****Execution risks pertaining to projects under implementation**

The expansion plans of NHPC expose the company to project execution and funding-related risks considering large capital expenditure plans in hydro and renewable segments on a consolidated basis. NHPC has faced cost and time overrun for 2000-MW Subansiri Lower and 800-MW Parbati II projects in the past. While Parbati II has been commissioned in April 2025, four units of Subansiri Lower have been successfully commissioned with entire plant expected to achieve COD by March 2027. The final tariff orders for Parbati II and Subansiri Lower are awaited. The company is also developing solar projects aggregating 1.1 GW under the Central Public Sector Undertaking (CPSU) scheme, which are slated for phased commissioning across FY27 and FY28. NHPC has fully commissioned the 300-MW Karnisar Solar Power Project in Bikaner, Rajasthan, under the CPSE Scheme, with COD for the entire capacity declared on October 16, 2025.

As on March 31, 2026, NHPC had 16 projects under construction with an aggregate capacity of ~9 GW on a consolidated basis. Consequently, the company's leverage profile remained high, with total debt/EBITDA of 8.27x as of FY26 end. The leverage profile is expected to remain elevated over the medium term, considering the significant planned capex of ~₹53,000 crore in FY27-FY30. The company's ability to commission these projects without significant cost and/or time overruns, and to secure regulatory approval of capital costs without material disallowances, will remain key rating sensitivities.

**Counterparty credit risk**

The company is exposed to counter party credit risk considering exposure to state distribution utilities and departments which have moderate to weak credit profile. In the past, there has been accumulation of debtors, especially from Jammu & Kashmir Power Corporation Limited and Uttar Pradesh Power Corporation Limited (UPPCL). However, several liquidity measures rolled out by the Ministry of Power (MoP) has aided in reduction in overdue receivable of the company. Overdue receivables, which were 55% of the total as on March 31, 2021, is consistently moderating and thus has reduced to 9% as on March 31, 2026. NHPC's dominance in hydro power generation in India with fairly diversified off-taker base alleviates the risk to a great extent. Timely receipt of payment from off-takers, shall remain a key monitorable going forward.

**Liquidity: Strong**

There is sufficient headroom in the projected gross cash accrual with less internal accrual committed for capex in FY26 against the scheduled debt repayment. Since a portion of the scheduled repayment pertains to the debt raised for under-construction

projects, the company is expected to elongate its debt maturity profile through refinancing and thus, ease its liquidity profile. The company's cash and bank balance stood at ~₹3,651 crore as on March 31, 2026, on a consolidated level. Considering the comfortable capital structure, the company has sufficient headroom, to raise additional debt for its planned capex.

### Environment, social, and governance (ESG) risks

The ESG objective of NHPC is to produce clean energy from hydro, wind, and solar resources. NHPC seeks to promote sustainability, lessen carbon footprints, and safeguard the environment via its commercial activities. NHPC has put in place the necessary rules and processes to achieve the objectives of waste management that is scientific and water conservation that is a result of company activities. In accordance with the relevant Waste Management Rules of the Government, NHPC works toward efficient waste management via moral behaviour.

### Disclaimer:

This disclaimer pertains to the ratings issued and content published by CARE Ratings Limited ("CareEdge Ratings"). Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. Any opinions expressed herein are in good faith and are subject to change without notice. The rating reflects the opinions as on the date of the rating. A rating does not convey suitability or price for the investor. The rating agency does not conduct an audit on the rated entity or an independent verification of any information it receives and/or relies on for the rating exercise. CareEdge Ratings has based its ratings/outlook on the information obtained from reliable and credible sources. CareEdge Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. The users of the rating should rely on their own judgment and may take professional advice while using the rating in any way. CareEdge Ratings shall not be liable for any losses that user may incur or any financial liability whatsoever to the user of the rating. The use or access of the rating does not create a client relationship between CareEdge Ratings and the user.

CAREEDGE RATINGS DISCLAIMS WARRANTY OF ANY KIND, EXPRESS, IMPLIED OR OTHER WARRANTIES OR CONDITIONS, TO THE EXTENT PERMITTED BY APPLICABLE LAWS, INCLUDING WARRANTIES OF MERCHANTABILITY, ACCURACY, COMPLETENESS, ERROR-FREE, NON-INFRINGEMENT, NON-INTERRUPTION, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE OR INTENDED USAGE.

Most entities whose bank facilities/instruments are rated by CareEdge Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CareEdge Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. CareEdge Ratings does not act as a fiduciary by providing the rating. The ratings are intended for use only within the jurisdiction of India. The ratings of CareEdge Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades. CareEdge Ratings has established policies and procedures as required under applicable laws and regulations which are available on its website.
