NOTICE INVITING TENDER

INTRODUCTION

- 1.0 NHPC Limited (hereinafter called NHPC) intends to procure solar power up to a capacity of 1200 MW with Energy Storage Systems (ESS) through Competitive Bidding Process (conducted online followed by reverse auction) and additional capacity upto 1200MW with Energy Storage Systems (ESS) with “Greenshoe Option”. After conclusion of bidding process, NHPC shall enter into Power Purchase Agreement (PPA) with the selected Bidders, based on this RfS for purchase of Solar power for a period of 25 years from the Scheduled Commencement of Supply Date of the project based on the terms, conditions and provisions of the RfS and PPA.
- 1.1 This document is for selection of Solar Power Generators (SPGs) for setting up Grid-connected Solar-PV Power Projects of aggregate capacity of **1200 MW** with Energy Storage Systems (ESS) and additional capacity under “Greenshoe Option” upto 1200MW with Energy Storage Systems (ESS) on the land to be identified & arranged by the SPGs in anywhere in India. The solar power produced by the selected SPGs from their respective Solar-PV Power Projects / ESS will be purchased by NHPC and would be sold to the State Utilities/ Discoms/any other Beneficiaries. The details of Buying Entities shall be intimated at a later date. NHPC shall at its discretion be entitled to substitute any entity in other states only for selling the power procured from the selected Bidders. NHPC shall be an intermediary nodal agency for procurement of power supplied by the SPGs and sale of such power to the Buying Entity(ies) entirely on back-to-back basis, based on due performance by the SPGs as well as the Buying Entity(ies).
- 1.2 ESS of at least 0.5 MW/1 MWh capacity for 1 MW Contracted Capacity shall mandatorily be installed as part of the Project. It is clarified that ESS charged using a source other than solar power would not qualify as solar power. For avoidance of any doubt, it is hereby clarified that ESS may be owned by the SPG or may be tied-up separately with a third party by the SPG, for supply of power. The ESS technology can be changed by the SPG at any time during the Term of the PPA. Any change in the ESS component during the term of the PPA shall be at the risk and cost of SPG and under intimation to NHPC.
- 1.3 The minimum project size will be 50 MW (with a minimum ESS component of 25 MW/50 MWh) and in multiples of 10 MW thereafter under OPEN category. **The cumulative capacity offered should not exceed 600 MW** (with a minimum ESS component of 300 MW/600MWh) **without “Greenshoe Option” and 1200MW** (with a minimum ESS component of 600 MW/1200MWh) **for a bidder with “Greenshoe Option. However, for Projects located in North-Eastern States and**

Special Category, the minimum quantum of Contracted Capacity that can be offered by a Bidder, including its Parent, Affiliate or Ultimate Parent or any Group Company, shall be 30 MW (with a minimum ESS component of 15 MW/30 MWh).

- 1.4 The bidders will be short-listed by the process of e-bidding (**Single Stage Two Envelope Bidding Process. Envelope-I: Technical Bid and Envelope-II: Financial Bid**) to be followed by reverse auction process for selection of bidders. E-bidding is a new methodology for conducting Public Procurement in a transparent and secured manner. For conducting electronic tendering, NHPC Ltd. is using the Central Public Procurement (CPP) Portal <http://eprocure.gov.in/eprocure/app>. The site can also be viewed through e-procurement corner of NHPC website www.nhpcindia.com and CPP Portal.

OVERVIEW OF RFS:

- 1.4 Solar Power Generators (hereafter referred to as SPGs) selected by NHPC based on this RfS, shall set up Solar PV Projects on Build Own Operate (BOO) basis in accordance with the provisions of this RfS document and standard Power Purchase Agreement (PPA). The standard PPA document can be downloaded from CPP portal <http://eprocure.gov.in/eprocure/app>
- 1.5 NHPC shall enter into PPA with successful SPGs for a period of 25 years from the date as per the provisions of PPA. The Bidders will be free to avail fiscal incentives like Accelerated Depreciation, Concessional Customs and Excise Duties, Tax Holidays etc. as available for such projects. The same will not have any bearing on comparison of bids for selection. As equal opportunity is being provided to all bidders at the time of tendering itself, it is up to the Bidders to avail various tax and other benefits. No claim shall arise on NHPC for any liability if bidders are not able to avail fiscal incentives and this will not have any bearing on the applicable tariff.
- 1.6 Bidder shall quote a single tariff for entire of its projects' capacity offered, which shall be applicable for all the 25 years.
- 1.7 If the Project is transferred or sold to a third party during its tenure (after initial lock-in period of 1 (One) year after SCSD), NHPC will retain full rights to operationalize the PPA with the third party, which will be under full obligation to honour all the obligations and terms & conditions of the PPA.

SELECTION OF TECHNOLOGY & ELIGIBLE PROJECTS UNDER THIS RFS

- 1.8 Under this RfS, the SPG shall set up the Solar PV Power Project(s) and the associated ESS system, including the dedicated transmission network up to the Interconnection/Delivery Point, at its own cost and in accordance to the provisions of this RfS document. All approvals, permits and clearances required for setting up of the Project(s) and/or dedicated transmission network upto the Interconnection/ Delivery Point (along with connectivity), including those required from State Government and local bodies, shall be in the scope of the SPG. The Projects to be selected under this RfS for aggregate capacity of 1200 MW with ESS and additional capacity under Greenshoe Option upto 1200MW with ESS to be installed anywhere in India,

provide for deployment of Solar PV Technology & ESS. However, the selection of projects would be technology agnostic within the technology mentioned above. Crystalline Silicon or Thin Film or CPV, with or without trackers can be installed. Only commercially established and operational technologies can be used to minimize the technology risk and to achieve the timely commissioning of the Projects.

1.9 Developers/Generators who have already commissioned Solar PV plants or are in process of constructing such plants and have untied capacity may also participate in the bid. Developers who have already set up capacity or who have spare untied capacity (that is unencumbered from any power supply commitments or power purchase agreements and is available for augmenting the proposed RE power under this RfS) may also participate in the bid.

1.9.1 No separate Central Financial Assistance is envisaged for implementation of the Projects selected under this RfS.
